THE CRAIG H. NEILSEN FOUNDATION

WHAT: A 3-day event featuring:

- Presentations and small-group discussions with researchers on the cutting edge of neurological science;
- Advocacy and fundraising workshops to engage the community in taking control of its future;
- Recreational & fundraising activities to connect with your peers and accelerate progress.

WHO: Leaders who are revolutionizing the way we look at paralysis:

- Research scientists dedicated to restoring function, no matter how complex the neurological puzzles;
- Practitioners and therapists who believe in the potential to maximize recovery from spinal cord injury and other paralyzing conditions;
- Advocates from the paralysis community, building the “Power of Us” to promote curative therapies NOW.

WHY: Working 2 Walk is a unique opportunity you won't want to miss:

- Up-to-the-minute information on the latest news in regenerative medicine, clinical trials, and real-time therapies;
- Meet the scientists you've read about; ask them your questions. Previous W2W speakers include Drs. Wise Young, Hans Keirstead, Stephen Davies, John McDonald, Oswald Steward, and many more;
- Network with your peers in an exciting, dynamic environment filled with hope and belief in a better future.

WHERE & WHEN: Coming to the Phoenix area in the Fall of 2010

- November 11-13, 2010 at the Airport Marriott Phoenix. For more information:
